

Federal Write-In Absentee Ballot - Instructions for Ballot Completion and Mailing

Dear

Thanks for initiating the Federal Write-in Absentee Ballot process!

Next, follow the instructions below to get to the finish line and have your voice heard in these upcoming elections:

1. Print the downloaded documents
2. Review, and then sign the Voter's Declaration/Affirmation Federal Write-In Absentee Ballot (FWAB)
3. Fill out the Official Federal Write-in Absentee Ballot. This is the exciting part where you get to actually vote!
4. Place your voted ballot into a separate envelope with **only** the words "Security Envelope" written on the outside. Make sure you seal this envelope with your voted ballot in it. Do **not** put any additional information on this envelope.
5. Place this "Security Envelope" along with the signed FWAB documents into a larger mailing envelope.
6. Mail your package to your local election office at the following address, and ensure you put your return address on the outside of the envelope:

USA

7. Take your package to a local overseas post office to obtain the correct international airmail postage and have your envelope postmarked from outside the US.

Now get your vote in quickly -- let's make sure each of our voices are counted this election!

With hope and determination,

Emma, Rewan, Ben and the entire Avaaz Overseas Voter team!
